Abdullah Tammam

Student - Computer Science

Maadi, Egypt | abdullahtammamx@gmail.com | 01112211474

Professional Summary

Motivated Computer Science student with a strong foundation in **software development**, **web technologies**, and **cybersecurity**. Skilled in building **responsive web applications** using **React.js**, **Node.js**, and modern **CSS frameworks**. Knowledgeable in **Linux systems** and **cloud security practices**. Passionate about **continuous learning**, **problem-solving**, and applying technical skills to **real-world projects**.

Skills

- React.js
- Bootstrap
- C++
- Cloud Security Fundamentals
- Team Collaboration
- Node.js
- Tailwind
- JavaScript (ES6+)
- Git & GitHub
- C++ / C
- HTML/CSS
- Laravel Framework
- Linux Systems
- Problem Solving & Algorithms
- Java

Employment History

React.js Training Program at Digital Egypt Pioneers Initiative (DEPI)

June 2025 to Present | Cairo, Egypt

Currently enrolled in the DEPI training program specializing in modern web development.

Completed coursework and hands-on projects in **HTML, CSS, Bootstrap, TailwindCSS, JavaScript (ES6+), and Node.js**.

Actively learning **React.js** and applying concepts to build responsive, interactive applications.

Gaining practical experience with industry-standard tools, frameworks, and collaborative workflows.

Education

Bachelor's Degree in Computer Science at Modern University for Technology & Information – Cairo, Egypt

Sept 2023 to Sept 2027 | Mokattam, Cairo, Egypt

Coursework includes: advanced software development, cutting-edge web technologies, algorithms, cloud security, and Linux systems. Actively engaged in **building projects**, **delivering technical presentations**, and mastering programming from the ground up. Ranked **4th in class** with a distinguished **CGPA of 3.93**, consistently demonstrating strong analytical ability, problem-solving skills, and a drive for excellence.
